

ARMOUR PROTEK®
and
ARMOUR PROTEK
ULTRA®

The next best thing
to stainless steel!

ARMOUR PROTEK[®]

The next best thing to stainless steel!

ARMOUR PROTEK[®] plating has a hard shell finish. From research gathered, current industry salt spray results on silver platings have not exceeded 1200 hours .

The salt spray results for ARMOUR PROTEK[®] have been as high as 6000+ hours!

ARMOUR PROTEK[®]

is a **six-step** process for fasteners up to 3/8 diameter and a **seven-step** process for fasteners with a 7/16 diameter and up.

ARMOUR PROTEK ULTRA[®]

This is a **seven-step** process for fasteners up to 3/8 diameter and an **eight-step** process for fasteners with a 7/16 diameter and up.

The salt spray results have ranged as high as 10,000 to 12,000+ hours.

This is TEN times the current industry results!
